Index to 1979 articles

By issue

JANUARY

67 1979 Welding and Fabricating Buyer's Guide
119 What's the State of Welding Safety?

FEBRUARY

49 Flash Butt Welding a 56-Inch Pipeline
54 It Pays to Understand Pipeline Standards
57 Cold Cracking in Welds in HSLA Steels
61 Natural Gas Pipeline Scales West Coast Mountains
64 Progress on the Alaska Highway Gas Pipeline
67 Where Welders Become Pipeliners
69 Euclid — Big in Positioning
73 Positioners — A Blessing for Fabricators
76 A Robot in Your Future?
78 W.E. Data Sheet No. 461 — NEMA Color Codes

MARCH

85 Smooth Sailing for Vertical Welding
89 Getting the Most from Welder Training Programs
96 Tooling Up a New Weld Shop
101 Welding the Special Ferritic Stainlesses
108 Brazing Tomorrow's Aircraft Engines
116 Code Storage Tanks Built with Speed, Skill
118 Narrow-Gap Welding Nears the Shipyards
122 Welding the Clad Steels
126 W.E. Data Sheet No. 462 — Filler Metals for Clad Steels

APRIL

53 Fabricating the Constructional Steels
57 W.E. Data Sheet No. 463 — Constructional Steels
61 Building a Surge Tank Takes Skill, Nerve
63 Fabricating Steam Drums for Generators
66 Choosing the Right SAW Wire/Flux Combination
69 Layered Vessel Floats to Navy Lab
74 Materials Showcase
76 The SPFA Convenes
78 Friction Welding Re-examined

MAY

59 High-Strength Steels: Less Is Just as Good
63 W.E. Data Sheet No. 464 — HSLA Sheet Steels
64 Adapting HSLA Steels to Welded Wheel Rims
66 Acoustic Emission Hears Weld Flaws Form and Grow
70 Hints for Accurate Shearing
76 Weld Deposit Adds Life to Mill Rolls
80 Weldbonding Joins Auto Body Sheet
82 Designer's Guide to Welded Structures — Part 1: Steels
86 King-Size Fuel Tanks Boost Spacemen into Orbit
90 Bridging the Gap Between Dissimilar Metals
92 Low-Cobalt Surfacing Alloys Take the Stage

JUNE

67 How We Moved Up to NC Plasma Cutting
76 Central Computers — Boon for Production and Management
80 Computerized Cutting Needs No Programmer
84 Has Anything Changed in Bending Roll Design?
89 Plate Bending Roll Selector
90 How to Buy a Bending Roll
92 Mechanized Pipe Fab Shop Saves Plenty
97 W.E. Data Sheet No. 465 — Pipe Wall Thicknesses
98 Designer's Guide to Welded Structures — Part II
104 Keeping the Welder Healthy and Safe

JULY

53 Underwater Welders Repair Drilling Rigs
60 Repairing Deep-Sea Pipelines and Structures
65 Training Operators for Underwater Welding
68 W.E. Data Sheet No. 466 — Underwater Cutting
70 Welding Without Gas
74 Maintenance and Repair Keep Big Business Going
80 Robots Push Carts Through Production Fast
84 A Record Year for Welding

AUGUST

49 Engineered Welds Make Tough Mining Machines
55 Powerful Tunnelers Outmatch Rocks and Earth
60 Welds Strengthen Dozers: Efficient Design
64 Born-Again Bridges Carry the Freight
68 Design Fatigue Strength into Bridge Welds
70 Three Speedy Ways to Weld Thick Aluminum
76 The Hidden Cost of Thermal Cutting
82 W.E. Data Sheet No. 467 — Estimating Preheats

SEPTEMBER

67 Gateway Opens for Testing Engineers
70 NDT Show Library
72 Jumbo Aluminum Spheres Bring Gas Across the Sea
77 Reading Radiographs Takes Time and Patience
79 W.E. Data Sheet No. 468 — Guide to Radiographs
80 Ultrasonics Test Pipe Welds on the Fly
82 Testing is the Key to Pipeline Standards
84 Welds Strengthen Dozers — Part II
90 Solder Aluminum Joints Ultrasonically
93 Brazed Heat Exchangers Keep Planes in the Air
96 Handling Plate Right?

OCTOBER

67 Welding Powers Steam Turbine Production
74 Tracking Down Cracks in Boiler Tube Welds
80 Clever Joint Design Makes Welding Easy
84 Inspect Tubes and Pipes with Mini-TV Cameras
87 Nuclear Power Plants Need Tender Care
90 Copper Takes a Lot of Heat
102 Surface Tanks with Organic Coatings?
104 W.E. Data Sheet No. 469 — Estimating Thicknesses

NOVEMBER

49 Submerged Arc Welding: Making a Comeback
54 W.E. Data Sheet No. 470 — SAW Variables

MONTH: Page number

Acoustic emission **5**:66-9
Aerospace **3**:108-14 **5**:86-8
Aircraft **5**:80-1 **9**:93-5
Aluminum **5**:72, 80-1 **8**:70-3 **9**:72-6 **10**:50-2 **12**:54
Aluminum tanks **5**:86-8
Automatic welding **1**:44 **2**:76-7 **6**:50-2 **8**:36-8 **12**:56-9
Automotive **5**:59-62, 80-1 **8**:36-8 **12**:52, 54
Brazing **3**:108-14 **6**:52-4 **9**:48-50, 93-5
Bridge construction **8**:64-6
Bridge design **8**:68-9
Cladding **2**:32 **3**:64-70 **5**:77 **10**:69-72, 77-9
Clad steels **3**:122-8
Coated steels **12**:54
Coatings, baked **10**:102-3
Coatings, ceramic **6**:48
Coatings, organic **10**:102-3
Construction, steels for **4**:53-60
Coppers **10**:90-100
Cracking **10**:74-9
Design of weldments **5**:82-4 **6**:98-103
Dissimilar metals **5**:90-1
Earthmoving equipment **8**:49-63
Electrodes, color codes for (data sheet) **2**:78
Electrogas welding **7**:72-3
Electroslag welding **10**:71
Eye protection **6**:106-7
Fabricating equipment **5**:70-1 **6**:84-91 **12**:49-54
Fatigue strength **8**:68-9
Ferritic stainless steels **3**:101-6
Filler metals, clad steels (data sheet) **3**:126
Finishing **3**:100
Flamecutting **6**:67-82 **8**:76-80 **9**:96-7 **10**:54-7, 69-73 **12**:76-80
Flash butt welding **2**:49-53
Flash welding of steel sheet **5**:64-5
Flux-cored welding **7**:70-3 **10**:70-1
Forming **12**:53
Fracture mechanics **9**:82-3
Friction welding **4**:78-9
Fume control **1**:122-6 **6**:104-6
Gas metal arc spot welding **12**:54
Gas metal arc welding **1**:44 **3**:85-8, 96-100 **4**:40-2 **10**:52-4
Gas tungsten arc welding **2**:40 **5**:51-2
Gloves, welding **12**:70-4
HSLA steels, fabrication of **4**:53-60
Half-bead repair **10**:87-9
Heads, pressure vessel **12**:82-4
High-frequency welding **7**:42-4
Hydrogen cracks **10**:47-8
Inspection, visual **10**:84-6
Interpass temperatures, estimation of (data sheet) **8**:82
Joint design **10**:79-83
Lamellar tearing **12**:86-7
Laser welding **8**:40-2
Maintenance welding **7**:74-7
Material handling **9**:96-7
Mechanized welding **7**:80-2 **9**:50-2
Metallizing **5**:44-5 **7**:40
Mill rolls **6**:48
Narrow-gap welding **3**:118-20
Nickel **5**:72
Nickel alloys **5**:90-1
Nuclear plants **10**:67-73, 87-9
Offroad equipment **1**:38-40 **10**:52-4
Offshore construction **7**:53-9, 60-7
Overlaying **1**:40-4
Pipe **4**:79 **6**:92-7 **9**:80-1 **10**:58-60
Pipelines **2**:49-68 **9**:82-3
Plasma cutting **12**:49-54
Plasma spraying **6**:48
Positioners **2**:69-75 **3**:98-9
Power plant construction **3**:74-8
Power supplies **12**:64-9
Preheat temperatures, estimation of (data sheet) **8**:82
Pressure vessels **4**:63-5, 69-73 **10**:79-83
Pumps **2**:32
Radiographs, troubleshooting guide for (data sheet) **9**:79
Radiography **9**:83
Radiography, training of inspectors **9**:77-8
Reinforcements, design of **8**:60-3 **9**:88
Repair welding **5**:40 **7**:44-6
Residual stress **10**:76-9
Resistance welding **2**:32-6 **4**:44 **12**:52, 54
Robots **2**:76-7 **7**:80-2 **12**:60-2
Safety **12**:70-4
Safety and health **1**:126-30 **3**:92 **6**:104-7 **10**:87-9
Safety regulations **1**:119-22
Sales, welding equipment and consumables **7**:84-6
Shearing **5**:70-2
Sheet fabrication **12**:49-54
Shielded metal arc welding **2**:66-7 **10**:58-60
Shipbuilding **3**:85-95, 118-20 **9**:50-6
Soldering of aluminum **9**:90-2
Spin forming **12**:82-4
Spot welding **5**:80-1
Stainless steel **3**:101-6 **5**:51-2, 90-1 **10**:69-73
Statistics, welding production — sales **7**:84-6
Steel, carbon sheet **5**:63
Steel, clad **5**:72
Steel, HSLA **2**:57-61 **5**:59-63, 72
Steel mill welding applications **5**:76-8
Steel, stainless **5**:72
Steels, construction with **4**:53-60
Steels, constructional (data sheet) **4**:57
Steels, cracks in **10**:47-8
Steels, properties and welding data (data sheet) **4**:57
Structures, steel **4**:61-5
Submerged arc welding **3**:96-100 **4**:66-8 **5**:40 **10**:52-4, 58-60
Surfacing **3**:64-70 **5**:76-8
Surfacing, low-cobalt alloys **5**:92-3
Tankers **7**:44-6 **9**:72-6
Tanks **3**:70-4, 116-7 **7**:72-3
Testing **2**:54-7 **3**:100 **5**:66-9 **6**:56 **9**:72-6, 80-3
Thickness calculations, pipe **6**:97
Thickness, estimation of (data sheet) **10**:104-5
Training **2**:67-8 **3**:74-8, 89-95 **10**:72-3
Training for underwater welding **7**:65-7
Training, inspectors **9**:77-8
Truck axles **12**:56-9
Trucks **4**:40-2 **9**:56-8
Tube **4**:44 **10**:74-9, 84-6
Tunneling machines **8**:55-9
Turbines **10**:67-73
Underwater welding **7**:53-64
Ultrasonic soldering **9**:90-2
Ultrasonic testing **9**:80-3
Underwater cutting processes (data sheet) **7**:68
Valves **1**:40-4
Ventilation **4**:42-3 **6**:54
Vertical up welding **3**:85-8
Weld backups **4**:36-7
Weld bonding **5**:80-1 **12**:54
Weld defects **2**:54-61
Welder training **9**:58-60
Wire feeders **1**:38
